Nighttime Lane Closures Continue for Both Directions of Interstate 15 in Victorville

VICTORVILLE, CA – Crews will continue to require nighttime lane closures of Interstate 15 for work in the center median. Motorists can expect the freeway to be reduced to one lane in both directions Tuesday through Thursday this week between the hours of 9:00 pm and 5:00 am. (see chart below)

These nighttime closures are critical for the safety of both the motorists and crew members as the project team conducts excavation and shoring activities. In addition, materials are trucked in at night for daytime pile driving activities.

No detour is required as one lane will remain open at all times. Motorists are encouraged to slow down in construction zones and seek alternative times of travel when possible.

SANBAG, City of Victorville, and our contractors thank you for your patience during this important transportation improvement project.

Location	Days	Hours	Details
